HUMANITAS

GRADENIGO

Dear Colleagues and Friends,

The fourth Turin Advanced course of reconstructive Urology, Andrology and Robotics take place on 8-10 June 2023 at Humanitas Gradenigo Hospital in Turin, Italy.

Lots of local and international experts from all over the world are invited to participate in this interesting event.

As in previous editions the scientific program includes live surgeries, pre-recorded surgical presentations, state-of-the-art lectures, case discussions and debates.

During the live surgery sessions in the two connected operating rooms and semi live presentations you will have the opportunity to follow many procedures including three-pieces penile prosthesis implants, both withinfrapubic and penoscrotal approach, penile lengthening surgery with sliding technique, multiple incision corporoplasty, distal tunical repair surgery, Chang's phalloplasty after penile amputation, penile implant in neophallus, inguinal node dissection for penile cancer, robotic extra-fascial prostatectomy with simultaneous prosthetic rehabilitation, urinary sphincter implant, anterior and posterior urethroplasty and management of ureteral and urethral strictures with Uventa TM.

This year all interested colleagues, including urology and andrology residents, fellowship attendees and all urologic specialists will have the opportunity to follow all the congress content from anywhere in the world in live streaming on the congress website **www.taurastorino.it**.

Hoping that you will enjoy our program, I welcome you to Turin for the 4th edition of Tauras.

Kind Regards, Omid Sedigh

HUMANITAS

GRADENIGO

Humanitas Gradenigo is a multispecialty hospital certified by the National Health Service for outpatient care and hospitalization. Founded in 1900, the hospital has a great medical tradition, and it is a benchmark in Oncology and Emergency-Urgency services in the Piedmont region. It has 180 beds, six operating rooms, and an Emergency Service with 45,000 admissions per year.

The hospital covers almost all clinical specialties: Cardiology, Hand Surgery and Therapy, General Surgery, Spine Surgery, Dermatology and Oncological Dermosurgery, Diagnostic Imaging, Endocrinology, Andrology and Metabolism, Gastroenterology and Digestive Endoscopy, Emergency Medicine, Physical Medicine and Rehabilitation, Internal medicine, Neurology, Ophthalmology, Oncology, Orthopedics, Traumatology and Robotic Prosthetic Orthopedics, otorhinolaryngology, Urology and Reconstructive Andrology, Pain therapy, as well as Analysis Laboratory services, Histopathology, Anesthesia and Intensive care.

The hospital is part of the Humanitas group together with the other Turin realities Humanitas Cellini, Clinica Fornaca, Clinica Sedes Sapientiae and the two Humanitas Medical Care of Turin and Rivoli.
